Preserving the Standard

Your trusted partner in reducing risk in high-risk environments through high-quality and long-lasting products, dependable service, and rapid response.

Sustaining operational performance and safety.

Goldline customers reduce common personnel and equipment safety risk through innovative, durable, and long-lasting products.

KEEP OPERATIONS RUNNING, LOWER MAINTENANCE AND OPERATIONAL COST

THE WELL KNOWN PROBLEMS TO BE SOLVED.

Every business has the well known problem of escalating and unanticipated costs to doing business. For example:

- Maintenance and repair costs can account for up to 5-10% of a company's cost of doing business
- Unplanned downtime events happen to up to 82% of freight operations, per year.
- Unanticipated downtime costs between \$10,000-\$250,000 per hour.

Reducing unanticipated financial risk to the business, and lowering ongoing maintenance and repair costs, have a positive impact on your bottom line by keeping operations performing well, keeping equipment safe to use, and people productive.

GREAT SERVICES ARE GREAT FOR A COMPANY'S PERFORMANCE AND FINANCIAL BOTTOM LINE.

PROservices

- **Perform:** Our services focus on keeping your operating environment up and running, your people productive, and budgets in check.
- **Responsive:** We have a 50-year track record of fast and accurate response to ongoing maintenance, emergency equipment repair, and preservation of safe work environments.
